Figure 1: Taj Mahal

Float Parameters for Image locations (Use Float Package in package call section)

h   - Place the float here.
t - Position at the top of the page.
b - Position at the bottom of the page.
p - Put on a special page for floats only.
! - Override internal parameters LaTeX uses for determining "good" float positions.
H - Places the float at precisely the location in the LATEX code. Requires the float package

Construction of the mausoleum was essentially completed in 1643, but work continued on other phases of the project for another 10 years. Depicted in the *Figure* 2.

Figure 2: Taj Mahal rotated 90 deg
